Data Entry Projects

Press Release

A new B2B Marketplace - revolutionary approach towards outsourcing

www.dataentryprojects.net - an OUTSOURCING portal that made a new wave online in B2B marketplace. It adopts a revolutionary and transparent approach towards outsourcing. Experts envisage that it will be "next Google of outsourcing".

Ahmedabad, IN - May, 14 2009 - A new transparent B2B marketplace - www.dataentryprojects.net is making waves amongst outsourcing industry across the globe with its revolutionary approach towards outsourcing. It adopts very transparent approach to help outsourcing service buyers and providers.

It covers the entire spectrum of data entry and back office tasks which is a perfect fit to be outsourced viz. data entry, administrative support, data processing, data conversion, word processing, web research, typing services, claim processing, scanning and indexing, mailing list development and much more.

"It has attracted thousands of visitors in precedent two days" said CEO. Many businesses are preferring www.dataentryprojects.net for their back office outsourcing over many other project portals. Experts envisage that it will be "next Google of outsourcing".

The portal works in an awfully easy manner:

Service Buyers - How It Works?

- E-mail your project description/requirements on projects@dataentryprojects.net or post it on site FREE.
- An editorial team will put your project on DataEntryProjects.
- Project alert email will be sent to all registered providers.
- Services providers searching for the projects will examine your project's details.
- If any provider is interested in undertaking your project, then he will contact you directly.

Service Buyers - Benefits

- Service is absolutely FREE. NO Middleman, NO Fees, NO Commission.
- No need to search for freelance service providers or companies. There are hundreds of services providers visiting the website daily.
- Your project being considered by a variety of skilled service providers locally, nationally, and globally.
- Choice to select your preferred provider based on capability, costs and talent.
- All service providers are pre-screened, so only authentically skilled service providers will get in touch with you.
- No obligation on your part to award the project.

For Immediate Release - May 14, 2009
